

# Informed Consent

ADULT INFORMED CONSENT To participate in a research project entitled

Mechanisms of Online Common Sense Parenting Training: A Pilot Study

## PURPOSE

We are conducting a research study to help us better understand how Common Sense Parenting (CSP) training contributes to your parenting practices by completing a short survey 3 different times during and after your CSP training. Your participation in this study is completely voluntary. You do not have to join. If you decide to join, you can still quit the study at any time.

## OPPORTUNITY TO ASK QUESTIONS

If you have any questions while reviewing this form, please reach out to Ashlee Mitchell, a member of our study team, either by email [TRC.REDCap@boystown.org](mailto:TRC.REDCap@boystown.org) or by phone 531-355-1287.

## WHAT WILL BE EXPECTED OF YOU

We ask that only one caregiver per family participate in this study, even if both partners are taking CSP. We will ask you about the behavior of one of your children that is between the ages of 6 - 16. If you have more than one child in that age group, please select one child to focus on for this study. The same caregiver should complete the survey about the same child each time. The survey has questions about your parenting practices and your child's behavior.

We will email you the same survey 3 times. The 1st survey will arrive within a week of your first CSP class. The 2nd survey will arrive within a week of your last CSP class. The 3rd survey will arrive about 30 days after your last CSP class. Please complete the surveys as soon as possible once you receive them.

The survey will take about 15 to 20 minutes to complete. You will receive a \$15 Amazon egift card after you complete each survey, for a possible total compensation amount of \$45. To receive the gift cards, we will need your full name and email address.

## POTENTIAL RISKS, DISCOMFORTS, OR OTHER PROBLEMS

There are no known risks for completing surveys on parenting practices.

## BENEFITS

This study may lead to a better understanding of the underlying mechanisms for children's behavior problems.

## ASSURANCE OF CONFIDENTIALITY

Once we have sent the gift cards to you, we will delete your name and email address. They will not be connected to your responses. Results from this research study may be published in professional journals or presented at scientific conferences, but never in a form that would allow participants to be identified.

Entering your name below certifies that you have decided to fill out the survey for the research study titled: Mechanisms of Online Common Sense Parenting Training: A Pilot Study and have read everything on this consent form. Please enter your full name and email in the space below so we can send you the Amazon electronic gift cards.
